

ARENA BOSS™

TAKE YOUR GROUND TO A WHOLE NEW LEVEL

SMOOTH MOVES

For safe riding conditions, consistent arena maintenance is required to keep surfaces level and groomed. To prepare your ground for the best possible footing, go straight to the top—the patent-pending **Arena Boss**.

- ▶ **Three point is compatible to use with quick hitch**
- ▶ **Designed to protect tires inside the frame**
- ▶ **Adjustable leveling bar for differing soil/water conditions**
- ▶ **Two rows of shanks, 8.5 inches apart, offer shear bolt for protection**
- ▶ **Long-lasting, easy-to-replace teeth are readily available**
- ▶ **Fabricated in the Northwest to be long-lasting and simple to maintain**

TAKE BACK YOUR GROUND

The easy-to-operate **Arena Boss** is full of surprises—the good kind, that is: You'll be shocked at how uneven your arena was prior to use. The **Arena Boss** can loosen, level, and repack hardened soil without plugging the rollers with rocks or mud. Painted with a heavy duty, industrial epoxy paint, the **Arena Boss's** quality finish offers long-lasting protection.

AVAILABLE SIZES/MINIMUM TRACTOR HORSE POWER REQUIRED

7' wide	40–60 horsepower
8' wide	50–85 horsepower
10' wide	100+ horsepower
